#### What is Turnitin?

Turnitin is an online service which can check students' work for potential plagiarism by text matching against the world's largest comparison database. The database includes internet pages, journals, periodicals etc. and student essays previously submitted. It produces an originality report which indicates the percentage of text matched.

Turnitin is integrated into iSpace. Turnitin assignments can be set up in any courses in iSpace. Teacher can upload students' work for checking. Students can use Turnitin at any time to check their own work.

Document formats that are acceptable for uploading are: Microsoft Word<sup>™</sup> (.doc and .docx) Corel WordPerfect® HTML Adobe PostScript® Plain text (.txt) Rich Text Format (.rtf) Portable Document Format (.pdf)

The file size may not exceed 20MB; files of larger size may be reduced in size by removal of non-text content (e.g. images)

#### Add a Turnitin Assignment

1. Click 'Turn editing on' at the top right of the main course page.

2. Click 'Add an activity or resource' in the course section where you want the label to be added.

3. Select 'Turnitin Assignment' in the pop-up window under 'Activities', and then click the 'Add' button.

#### Configure Turnitin Assignment

#### • General

- 1. Enter the Turnitin Assignment Name and Summary.
- 2. Select Submission Type.
  - File upload will allow students to upload a file.
  - **Text submission** will allow students to write/paste the submission inside text editor.
  - Any Submission Type will allow students to choose a file upload or text submission.
- 3. Select the Number of Parts you want the assignment to have. Each Turnitin assignment can have multiple parts associated with it. The student has to make a submission to each part to complete the assignment. The default is a one part assignment.
- 4. Select the Maximum file size, the file size may not exceed 20MB.
- 5. Select 'Yes' if you would like to allow students to see the Originality Report of the assignment. The default setting is 'No'.
